## LOCATION

We are located on the main road between New York and Boston, can make shipments by freight or express from New London, also have good shipping facilities by boat to New York and various other points.

For the benefit of those not acquainted with our establishment we wish to inform them that we have fifty acres devoted to the growing of lining out stock in seedlings, cuttings and grafted stock, and are trying hard to produce the best class of stock at a most economical method, so that we may turn it over to our customers to grow on with a small margin of profit for production.

We are, at all times, glad to have you call on us, and will gladly show you the grounds, so that we may get better acquainted.

We try to serve all of our customers alike; by this method, since our establishing in 1916, we have managed to be able to refer you to Dunn's or Bradstreets or any of our local Banks for references.

If interested in quantity, we would like to have the opportunity of quoting on your list of wants.

## GUARANTEE OF GENUINENESS

While we exercise the greatest care to have all our trees and plants genuine and reliable, and hold ourselves prepared to replace on proper proof, all trees that may prove untrue, we do not give any warranty expressed or implied; and in case of any error on our part it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the stock.

We guarantee all our stock to be in condition on leaving our hands, but we do not guarantee it to grow under all conditions, nor do we make up any loss whatever due to climate effects, or after culture on the part of the purchaser, and the risks of transportation are to be born by purchaser.
